

Portfolio Presentation

Megan Van Der Weide

Target Audience - Employer

Who are they?:

- Impressionable
- Desiring personable and contact information immediately
- Busy
- Technical brains and awareness of how the website should look
- Looking for hard and soft skills for their company/brand
- Expecting professionalism

Images all - black and white? Or

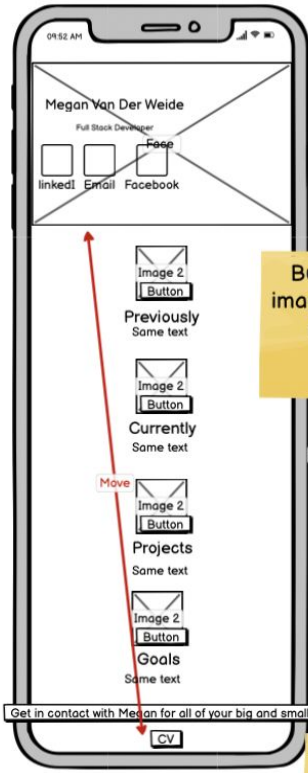

Component: Text overlay image

Component: Images are buttons to other links - in row

Text main colour to keep theme: brown/purple

Add background colour to footer - black

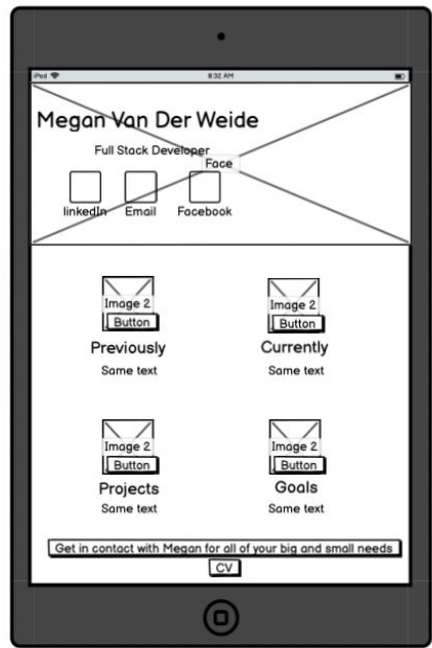

- Inclusions
- h1 - fonts are large with main font = clear and comprehensive
 - h2 - secondary color to differentiate between text and aesthetics
 - even spacing between elements = neatness

Buttons and images move to a column

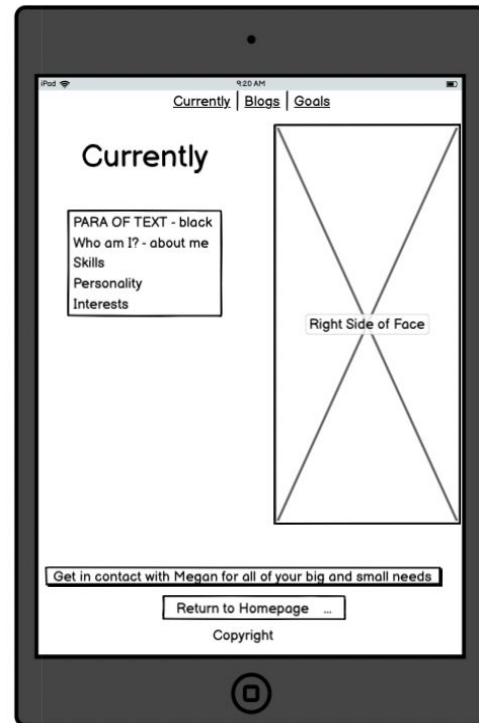

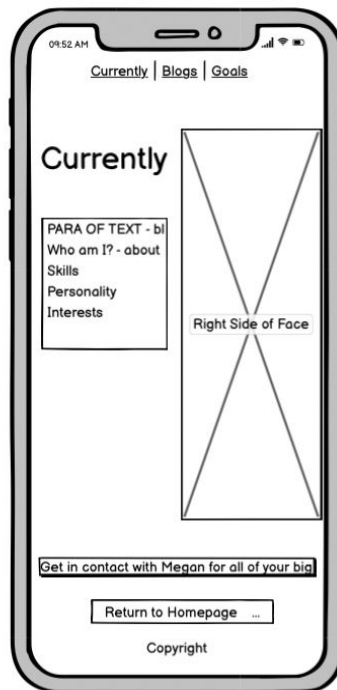

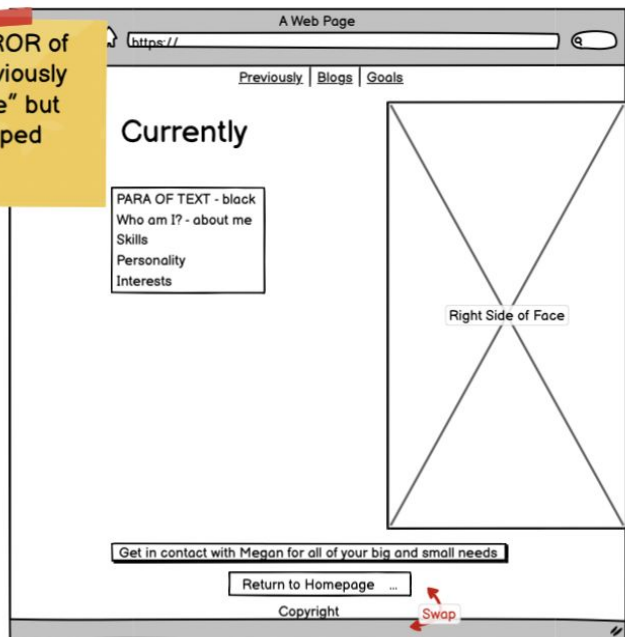

Scrolls down

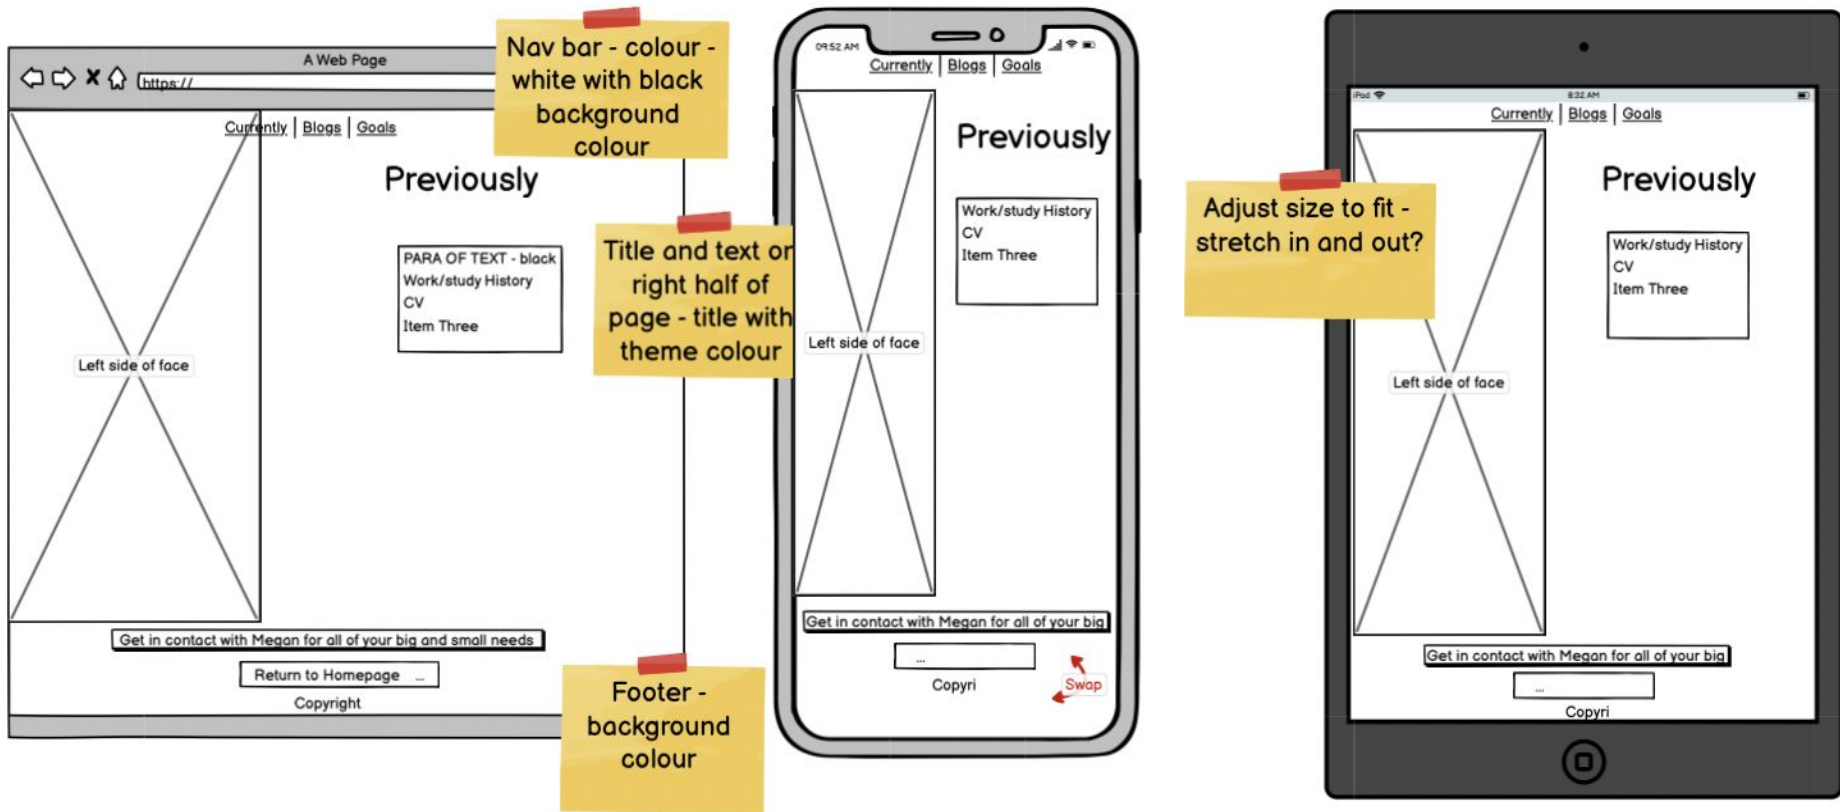

Footer on bottom

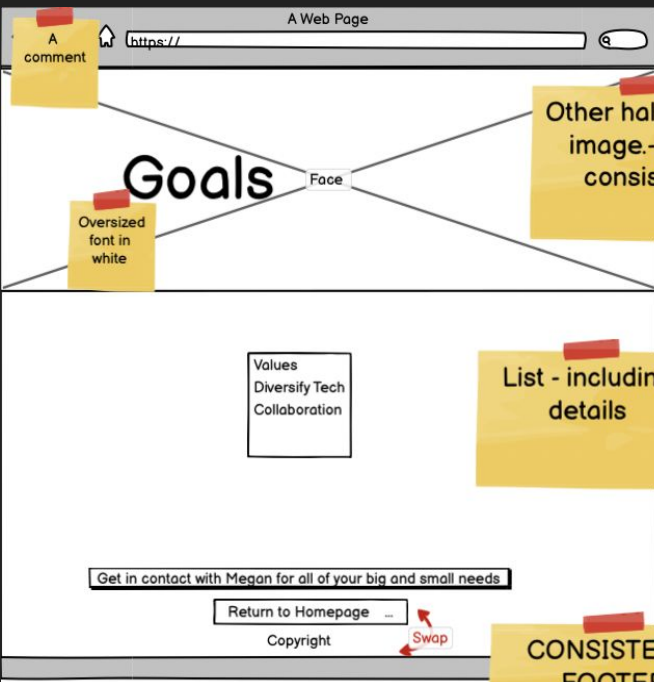

Move buttons/image into two rows

MIRROR of
"previously
page" but
flipped

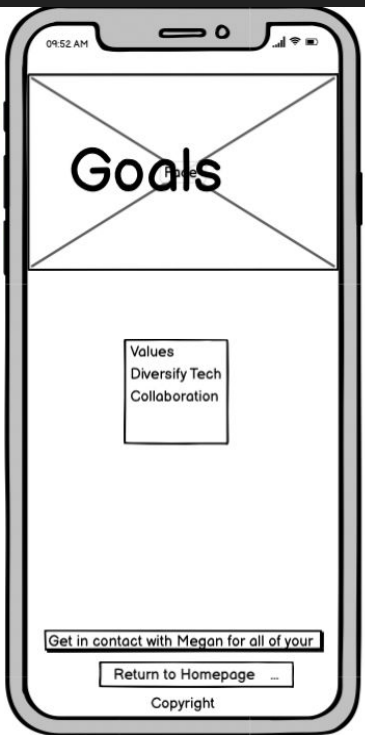

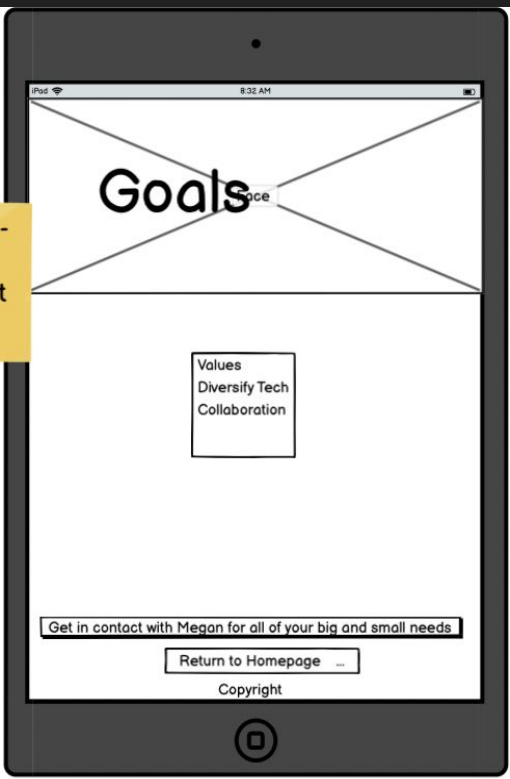

Other half of first image.- keep consistent

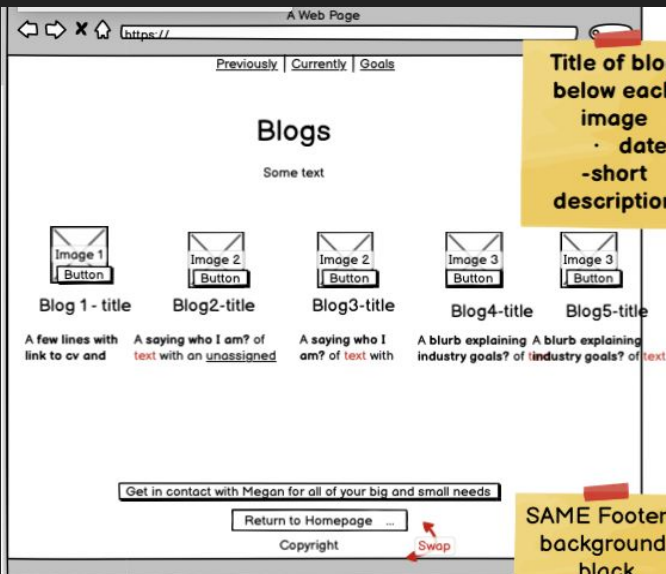

List - including details

CONSISTENT FOOTER

Same size - stretch in and out out

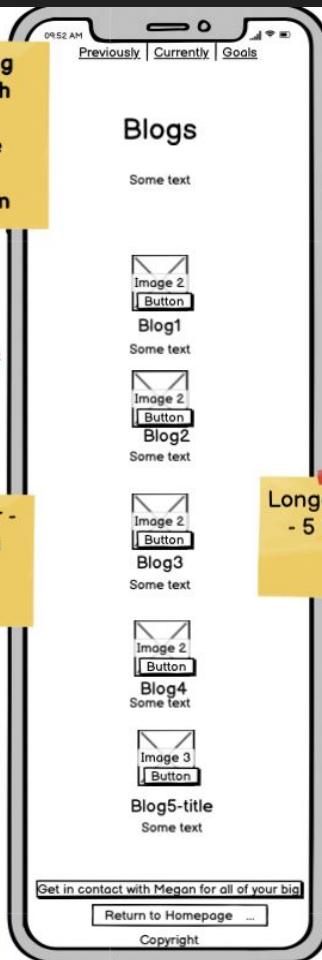

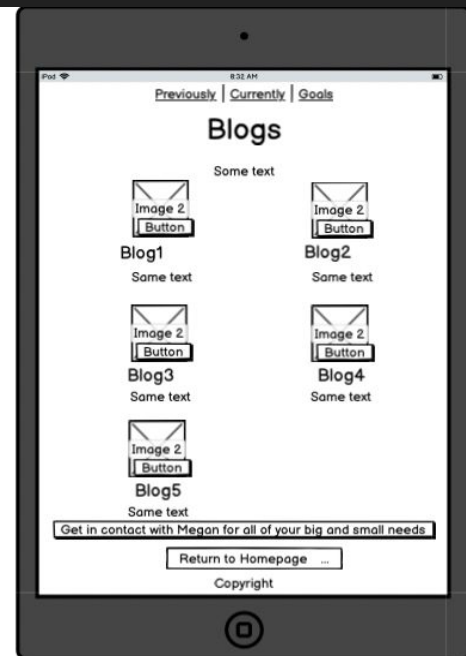

Title of blog
below each
image
- date
- short
description

SAME Footer -
background
black

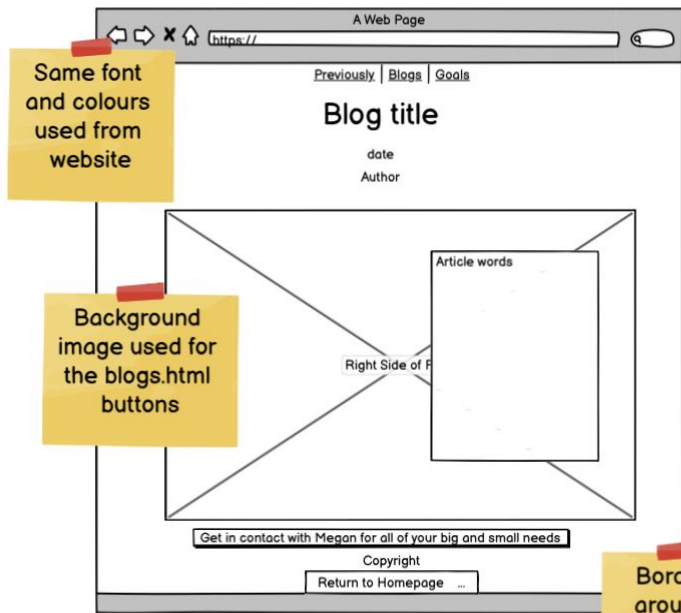

Component: Similar to
homepage. Images with buttons
and links to each blog HTML

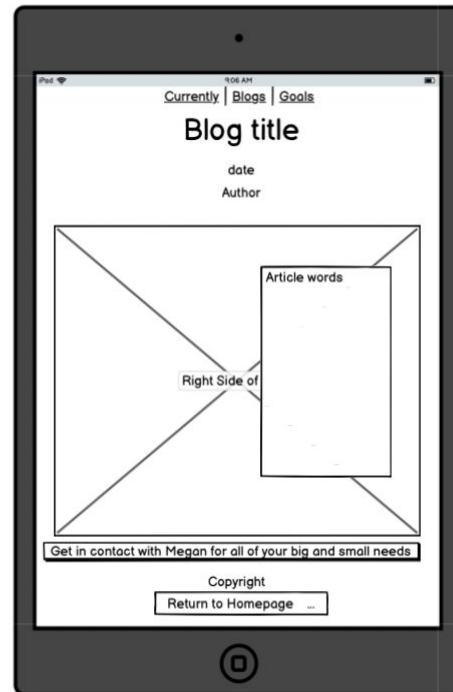

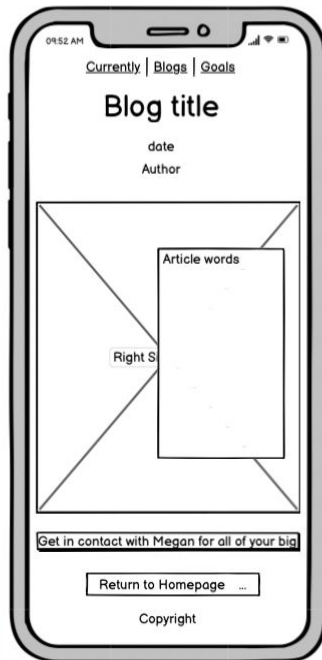

Longer scroll
- 5 blogs

Room for more
blogs in future
- rows of two

Border
around
article with
curved
edges

Components used

- Graphical and text components
- Aim to be: interactive, impressionable and engaging

Review of Development/Build Processes

- Build process: HTML, then CSS with updates to wireframe and adapting to change along the process. I.e. for media frames.
- Challenges: speed, time and layout
- Ethical Issues: truth telling and confidentiality
- Favourite Parts: learning and achieving small wins
- Room for growth: Creating separate style sheets for CSS
- Tests and future tests: patience and being creative
- Still to work on: Comprehending Flexbox options and using validators throughout development. Improve on my use of keyboard shortcuts and speed of writing code.
